# MESSAGE FROM THE VICE CHANCELLOR

It is my privilege to introduce you to Pakistan Global Institute (PGI).

PGI is built on a foundation of academic excellence, love, and high moral standards. The mission of our university is to equip our students with quality education and character development, preparing them to be leaders of integrity in the 21st century.

Our campus is set in beautiful surroundings with extensive facilities to support you in your studies, as well as a range of extra-curricular activities. We offer a vibrant and diverse community that provides you with an opportunity to not only study with international faculty, but also to experience personal growth. PGI challenges students to explore innovative intellectual interests through scholarly and personal competency programs. At PGI, students will learn to make new connections by making use of resources such as time and creativity.

Most importantly, PGI is preparing leaders with the heart, character, and skills, who can serve in Pakistan and around the world.

PGI will accompany you and take you one step closer to the portal of your future.

Welcome to PGI!

**MR. KYUNG EUN KIM**  
Vice-Chancellor

**DR. YEON CHOI**  
Pro Vice-Chancellor

# MISSION

Building a loving community through education

# VISION

PGI has a vision to educate students and equip them with the leadership for the next generation of Pakistan. For this purpose, we serve together to:

Cultivate honest leaders who will learn, love, and serve.

Cultivate skilled individuals who will be agents of transformation for the country and the community, based on professionalism and high ethical values.

Present a new model of university education that promotes the excellence of teaching and international cooperation within the culture of love and service.

## CORE VALUES

1

### LOVE

PGI promotes a culture of love and respect, fostering an inclusive community that embraces diversity and encourages mutual understanding.

2

### SERVICE

PGI strives for excellence in academic and administrative services, committed to providing the highest level of support to students, faculty, and the community.

3

### TRANSFORMATION

PGI cultivates transformational leaders who take social responsibility and make positive impacts on others, contributing to their communities and nations.

## PRINCIPLES OF ADMINISTRATION

1

### CULTURE OF LOVE

Create a school environment that encourages mutual respect and collaboration between professors and students.

2

### OPPORTUNITIES TO SERVE

Create a diverse range of opportunities to serve our neighbor.

3

### TRANSFORMATIONAL WORKERS

Develop challenging programs to become transformational workers in the community.

4

### PRACTICAL EDUCATION

Implement education that is practice-oriented and application-oriented.

## WHY PGI

At PGI, we focus on various areas such as, excellence, globalization, and character education, which all contribute towards providing you with an excellent education and foundation for the future, whether you decide to pursue further studies or to start your career.

Business Administration

# INTRODUCTION TO COMPUTER SCIENCE

We offer an excellent curriculum to prepare graduates for this fast-growing field. As the government of Pakistan emphasizes the importance of information technology, the PGI's CS department is committed to imparting quality education in all horizons of IT including fields of computer software and hardware. We also cooperate with Pakistan and foreign IT companies in lectures and practices. Our program includes the principles of computer software and hardware, algorithm, programming(SW, Web, Mobile, Game), database, network, artificial intelligent, big data, virtual reality, block-chain, and information security. After earning a degree in BSCS, students can apply for different types of jobs related to their main subjects and excel in the job market with high potential. Additionally, there are opportunities to study a variety of short courses such as Microsoft Office Specialist to gain additional qualifications.

# INTRODUCTION TO BUSINESS MANAGEMENT

We emphasize managerial discipline and teach students how to compete effectively in the global business environment. Students are instructed to handle dynamic business decision-making problems in an era of globalization and information revolution. The BBA curriculum additionally emphasizes business communication and management skills, global marketing, and trade, and economics to develop a competitive edge for graduates in the selected area of their global market.

Delving into many domestic and foreign case analysis. Furthermore, helps students to deepen their understanding of business practice. Students after getting a degree in Business Administration can apply for various job opportunities with respect to their main subjects and can excel in market with high potential. There will also be opportunities to study a variety of short courses such as Microsoft office Specialist and gain additional qualifications.
